Sellers are solely responsible for the development of Addons.

Sellers undertake to submit to PrestaShop, via the Submission Form, only Addons that comply with Development Standards, the rules established by the Seller Guide and to make any necessary corrections, if any, to the Addons at their own expense.

Sellers also bear sole responsibility for the development of Addons and in particular their upgrade in line with different versions of the Solution in accordance with the provisions of Article 5.8. The Seller shall be informed that any obfuscation of the source code of its Addons is prohibited. In order to optimize the validation speed of the Addon submitted and maximize its opportunities for sale, the Seller shall undertake to acknowledge the Seller Guide provided by PrestaShop and available in its administration interface.

PrestaShop shall make its best effort in order to make the download of Addons available on its website 24 hours a day and 7 days a week without interruption other than that required for curative or evolutive maintenance of PrestaShop Addons.

PrestaShop does not guarantee the Seller an uninterrupted operation of PrestaShop Addons and Middle-office.

The Addons are listed in the Catalogue per category and Sub-Category.

PrestaShop can freely set the conditions for referencing of the Addons in the Catalogue.

The Seller may nonetheless propose to PrestaShop that his Addons be listed in a specific Sub-Category. PrestaShop is free to accept or refuse this proposal.

The Seller is informed that, for said listing, PrestaShop shall in particular, take into consideration the following objective criteria for the Addons:

- the inclusion of positive and/or negative comments for the Addons;
- the ASS response rate, the responsiveness and quality of the ASS provided by the Seller;
- the Seller's seniority and experience;

Depending on the number of points that the Seller collects on the different criteria comprising the range of expertise system, he shall benefit from a "Conqueror", "Captain" or "Superhero" status.

In the event whereby PrestaShop does not have any or sufficient data on the Seller, the latter shall not benefit from any status.

The levels of expertise are automatically calculated on a weekly basis and shall take into consideration data that has been

collected over several months. Each Seller may access the details of such status in his administration interface.

PrestaShop may, at its discretion, change the criteria taken into consideration in the Range of expertise and the period during which the statuses are setup. The Seller shall be informed beforehand of any change.

The Seller shall be informed that PrestaShop may, in particular, take into consideration the Range of expertise, to guide the Customers in their choice of Addons through the faceted navigation tool.

5.5 Temporary or permanent delisting of Sellers

In general, PrestaShop may temporarily or permanently suspend, at any time, listing of Sellers in PrestaShop Addons or any of their Addons, in order to maintain the consistency in its Catalogue in accordance with the criteria defined in Article 5.2. PrestaShop will then notify the Seller by email or through its Middle Office.

- (i) Non-compliance with Development Standards by the Seller;
- (ii) Presence of malfunctions or anomalies in the design of one or several Addons of the Seller which may alter the functioning of the Solution or damage the image or reputation of PrestaShop;
- (iii) Presence of a virus or any other malicious code in one or more Addons of the Seller;
- (iv) Distribution of a description of one or several Addons of the Seller which is contrary to public order, morality, insufficient or which might cause

- (xi) Failure to comply with the obligations relating to the provision of the Business Care service as defined in Article 5.8;
- (xii) Redirection of Customer's correspondence relating to Addons to a messaging service other than that of PrestaShop Addons.

The Seller acknowledges that the above list is not exhaustive. Therefore, the Seller agrees that PrestaShop reserves the right to temporarily or permanently delist any Seller who fails to comply with its obligation of good faith in the context of the contractual relationship with PrestaShop. In this case, PrestaShop will notify the Seller of its decision to delist. In the case of a serious breach of the obligation of good faith or obvious fraud by the Seller, PrestaShop may delist the latter without prior notice and without formal

notice, subject to informing the Seller as soon as possible and prior to the delisting.

Sellers acknowledge that their delisting from PrestaShop Addons leads to the delisting of all of their Addons in the Catalogue. The Seller will be notified in advance by PrestaShop, by email or via its Middle-office of the alleged breaches and will be invited to comply with the obligations before being delisted.

5.6 Contesting delisting

In case of delisting of the Seller for non-compliance with the obligations relating to the follow-up of complaints defined in article 5.8, the Seller has the possibility to contest the delisting if he brings sufficient justifications to PrestaShop, in particular but not exclusively, he will be able to contest his delisting in case of :

- Cessation of business preventing the Seller from fulfilling its obligations;
- Lack of sufficient cooperation from the Customer to carry out the after-sales service;
- Case of Force Majeure as defined in article 12.

5.7 Marketing of Addons

Addons are marketed on PrestaShop Addons and on the Back-office of Customers' Shops pursuant to Terms and Conditions for Customer.

Sellers declare that they have read the Client Terms and Conditions available [here](#).

5.8 Business Care service

Sellers and Premium Sellers are required to provide the Business Care service for each of their Addons, the service applies per Addon and per URL.

Business Care services include:

- After Sales Service (ASS) ;

- Minor Updates;
- Major updates;

Excluded from the Business Care service are: certain services offered on the PrestaShop Addons marketplace such as training, support services and more generally any intervention on the Customer's Store.

The Business Care service is included in the purchase of an Addon and is provided for a period of twelve (12) months from the date of purchase of the Addon by the Customer (hereinafter "the Subscription Duration" for the purposes of this Article).

In the absence of termination, the Business Care service will be automatically renewed from the end of the initial Subscription Duration for a subsequent period of twelve (12) months.

The Customer may terminate the subscription to the Business Care service at any time without notice or penalty. When a Customer unsubscribes, the Business Care services will be terminated at the end of the current Subscription Duration, with the Seller providing the services until the expiry of the subscription in progress. Each yearly subscription started is due.

In the event of termination of the Business Care services, the Seller shall no longer be obliged to perform After Sales Service and Minor and Major Updates of the Addon concerned by this termination.

Customers may re-subscribe to the Business Care services for each Addon at any time in the future by reactivating it in the Seller's account, and under the same conditions described above. **Reactivation of a deactivated Business Care service will incur a financial surcharge on the original price applied in accordance with the financial conditions set out in Annex 2.**

The Seller undertakes to provide the Business Care service continuously during the Subscription Term, except in the case of

refunds or deactivation of the Business Care service.

The price of the Business Care services and the Commission are defined in Appendix 2.

a) After Sales Service (ASS)

The Seller undertakes to answer the questions and complaints of the Customers within one (1) working day, this, excluding periods of temporary cessation of activity duly notified to the Customers.

It is understood that the response to be given to the Customers must be personalised and provide a sufficient element of response. Automatic answers sent by the Sellers are not considered as a valid answer.

If necessary, the Seller undertakes to make all the necessary corrections to resolve the anomalies within fourteen (14) working days following their notification by the Customer on the Middle-office. In the event of a lack of response or failure to make the necessary corrections within the aforementioned time limits, the Seller shall be subject to the penalties set out in Article 5.8.2 of these General Terms and Conditions.

The Seller undertakes to make all necessary corrections to an anomaly directly and exclusively related to the Addon concerned, at its own expense within the aforementioned time limits, or failing that to refund the Customer the price of the Addon concerned.

The Seller shall provide After-Sales Service only if the Customer's Store version corresponds to the compatible versions advertised on the Addon's product sheet at the time of purchase, and if this Store does not contain any additional developments that are contrary to and incompatible with the installed Addon.

This service includes assistance with the installation, configuration and use of the Addon. It does not include any intervention on the Customer's store.

In case of failure of the Addon, the Seller may propose and/or communicate a minor and/or major update of the Addon, subject to its availability at the time of the Customer's request for After Sales Service.

b) Update Services

As part of the Business Care service, the Seller shall offer Customers Update Services for its Addons.

In accordance with the above, the Business Care service is not characterised by specific developments, customised on request and tailored to the Customer or its Shop and does not constitute an extension of the Addon's repayment period. The purpose of the Addon Update is to make it compatible with future versions of the Solution.

- ***Minor Update***

The minor Updates for the Addon available at the time of its purchase and subsequent thereto are provided free of charge and for an unlimited duration by the Seller. The purpose of the minor Updates is to correct the technical defects and generic security flaws as well as to ensure the compatibility of the Addon with the subsequent minor versions of the Solution.

The Seller undertakes to perform the Minor Updates of its Addons within a maximum of thirty (30) working days from the release of the new version of the Solution.

In the event that the Seller does not perform the Minor Updates of the Addon within three working months, the Seller shall be notified in advance by PrestaShop of the breach of its obligations and in the absence of action by the Seller, the latter shall be subject to the penalties provided for in article 5.8.2 of these Terms and Conditions.

Subject to being offered by the Seller, the minor Updates may include functional additions.

- ***Major Update***

Major Updates may allow the addition of new functionalities, the improvement of interfaces and an optimization of performance by partial or complete rewriting of the Addon's computer code.

The Seller undertakes to carry out the Major Updates of its Addons within a maximum of ninety (90) working days from the release of the new version of the Solution.

In the event that the Seller does not carry out the Major Updates of the Addon within six working months, the Seller shall be notified in advance by PrestaShop of the breach of its obligations and in the absence of action by the Seller, the latter shall be subject to the penalties provided for in article 5.8.2 of these Terms and Conditions.

Vendors whose Addons and Themes are developed solely for version 1.6 of the Solution will not be obliged to perform Updates to the latest minor version 1.7 and future major versions.

4.8.2 Breaches of Business Care obligations

Failure to comply with the obligations of the Business Care service, the Seller may have his status as "Conqueror", "Superhero" and "Captain" withdrawn. Withdrawal of status does not relieve the Seller from fulfilling its obligations in relation to Business Care services. In the event of withdrawal of status, the Seller acknowledges and agrees that it remains obliged to provide the Business Care service until it expires.

PrestaShop may also suspend and delist the Seller in the event of a breach which has not been remedied within the required timeframe and after warnings from PrestaShop, in accordance with clause 5.5.

The Seller may terminate the delisting at any time if the Seller fulfils its obligations under the Business Care service, by performing

After-Sales Service or by performing the necessary updates of its Addons. The Seller shall provide proof to PrestaShop that it has responded to the alleged breaches, PrestaShop reserving the right to check the Seller's compliance.

In addition, in the event that the Seller has failed to comply with the deadlines set out in Article 5.8.2 for the provision of the After Sales Service and Update services or fails to comply with its obligations under the Business Care services, then in such circumstances PrestaShop may validate the claims for reimbursement of the price of the Business Care services without the consent of the Seller. The Seller shall be obliged to reimburse PrestaShop for the amounts paid to PrestaShop under the Business Care service, PrestaShop reserves the right to deduct the corresponding amount from the Seller's account. In this case, the subscription to the Business Care services on the relevant Addon will be terminated.

4.8.3 Monitoring of customer complaints

Any complaint from a Customer regarding the operation of the Addons is forwarded to the relevant Seller via the Middle Office. The After Sales Service does not concern the third party service generated by the Addons or the service to which they allow access.

The Seller acknowledges that the Customer is eligible for a refund of the Addon alone, up to one (1) month after purchase, for at least one of the following reasons:

- The Addon has not been downloaded;
- The Addon is technically defective (provided that the Customer has previously contacted the Seller for After Sales Service)

The refund of an Addon systematically involves the refund of the subscription to the Business Care service as well as its termination. PrestaShop may, at its discretion, refund the Customer in cases where the product sheet and/or the demonstration of the use of the Addon has misled the Customer

on the essential qualities of the Addon that led him to contract.

In order to enable PrestaShop to ensure and monitor the processing of Customer complaints, the Seller undertakes (i) to regularly consult the Middle-office and (ii) to correspond with Customers for the purposes of processing their complaints only through the messaging tool made available to it on the Middle-office. It is agreed that in case the Seller does not respect these commitments, the complaints will be considered as not having been processed by the Seller. PrestaShop shall then be free to determine the treatment of such complaints (including the refund of the Addon to the Customer concerned).

5.9 Priority Ranking

The Seller may benefit from a Priority Ranking on PrestaShop Addons for their Addons in exchange for a remuneration directly paid to PrestaShop via the Seller's Middle-Office. PrestaShop is free to refuse the purchase of a Ranking service from a Seller. The Priority Ranking involves a differentiated display of the Addons in question during a browse on the PrestaShop Addons over a given and limited period.

The availability of the Priority Ranking is not guaranteed on the desired period for the Seller as the service could have been previously purchased by another Seller. The purchase of a Ranking is not a guarantee of an increase of sales for the Seller, which the latter acknowledges and accepts.

By proceeding with a purchase of a Ranking on the site www.addons.prestashop.com for one of its Addons, the Seller guarantees the availability of the latter for sale during the period in question. In the event whereby the Addon would no longer be referenced for the reasons listed in article 5.4 at the time of the Ranking, the purchase of the latter shall not be refund to the Seller. The refund of this purchase shall only be conceivable in the case

whereby PrestaShop would fail to respect its display obligation.

Conditions of display:

Once the reservation has been validated by the confirmation and the payment of the order has been made by the Seller, the Addon shall benefit from the Ranking on the page(s) reserved for the previously defined duration.

For any reservation in the Category or Sub-Category page:

- the Ranking shall be displayed in the case whereby the web-user has clicked on the Category in question in the main menu;
- the Ranking shall be displayed in the case whereby the web-user has selected the Category in the faceted browsing tool;
- the Ranking shall not be displayed in the case whereby the web-user accesses the Category by using the search bar.

5.10 Addons on sale – special offers

The Seller may sell his Addons on sale through special offers and discount.

The Seller benefits from twenty-one (21) days a year of discount per Addon available for sale on Addons. The discount on the Catalogue price can be set from 5% to 30%. The special offers will be put online after PrestaShop's validation and are not combinable with other special offers.

The Seller may also, since his Middle-office, offer at his convenience promotional codes ranging from -5% to -30% on the Catalogue Price. The discount allowed by these promotional codes is applicable for only one Addons chosen by the Seller through its Catalogue. These promotional codes are valid for a period of 1 month from their issue, the date of entry into force being freely definable before the attribution by the Seller. These codes cannot be combined with any other discount or promotion. They are nominative and non-transferable.

Promotional codes are freely assignable in the limit of 20 (twenty) codes per Seller per month. These promotional codes are one month available from its delivery.

Under PrestaShop's proposal, the Seller may agree on selling his Addons within a Pack. The Addons Pack is a combination of several Addons and invoiced as one product. A Pack is equivalent to a product ordered, each Addon Pack is technically independent. The Seller is free to refuse the distribution of his Addons within an Addons Pack at any time by unticking the dedicated box within its back-office.

These promotional operations cannot be combined with other ongoing promotional operations.

6. Financial Terms

PrestaShop is not a payment service provider but rather an institution with an exemption.

PrestaShop collects payments from the Customer and repays the Seller as per the payment institution authorization exemption that has been granted to PrestaShop by the French Prudential Control and Resolution Authority (ACPR).

The Seller acknowledges that only PrestaShop is authorized to receive from the Customers the Payment of the Addons and the Business Care service Price. The Seller also acknowledges that PrestaShop may reimburse the sales.

Business Care service and the Commissions charged are set out in Appendix 2 of these Terms and Conditions.

This amount may be consulted by the Seller at the Middle-Office.

The Seller may only request payment from PrestaShop for the price of the sales only once forty-five (45) days have passed since notification of the sale in the Back-office, and if the three following conditions are met:

- PrestaShop must not have had to cancel the download;
- The total amount owed to the Seller must be greater than or equal to one hundred (100) euros before taxes;
- The Seller request for payment must be sent to PrestaShop within a one-year (1) period starting from the end of the forty-five (45) days period mentioned above. Otherwise, the Seller shall be deemed to have waived the payment in question and shall not be entitled to any reimbursement.

It is to be noted that links that are only shown in the Customer Stores Back-office after a search has been conducted in the Back-office (only visible on Back-office after a Research) are not subject to the 50% Commission.

It is also to be noted that if there is a commercial discount or promotion on the Catalogue Price initiated by PrestaShop, the Commission will be calculated on the basis of the Sales Price. The commercial discounts and promotional actions made by PrestaShop cannot generate a discount on the Catalogue Price of more than 10%.

Regarding special offers described in article 5.10, PrestaShop will get 40% Commission of the Sale Price.

The PrestaShop Commission on an Addon sale or Update Service (excluding the Business Care service) may not be less than ten (10) euros, excluding taxes.

Notwithstanding the foregoing, if a Customer sends a request for reimbursement of an Addon Sales Price within the above-mentioned forty-five (45) days period, the Seller agrees that the said invoicing period shall be suspended until the reimbursement of the said Customer comes into effect, in order to consider this reimbursement when calculating the Commission.

If a Customer requests reimbursement after the said period of forty-five (45) days, the amount reimbursed shall be deducted from the next remuneration paid to the Seller.

The Seller acknowledges that in the event of a breach of its obligation of good faith in the contractual relationship with PrestaShop or in the event of manifest or serious fraud, PrestaShop reserves the right to suspend or

refuse the payment of sums received for the sale of Addons and/or for the Business Care service to the Seller. In such cases, PrestaShop also reserves the right to refuse refunds requested by Customers.
